

**UHAI-CT HIV Counselling and Testing Intervention in Njombe  
Region - July 2013**

**Male participants in the 'Jali Maisha' sessions engage in group discussions on how to protect themselves from sexually transmitted diseases including HIV/AIDS. The Jali Maisha HIV/AIDS awareness and correct condom use sessions were organised by T-MARC Tanzania as part of the free counselling and testing services offered by the UHAI-CT Program in Njombe Region**

**It's all smiles as Mtumishi Nicodemo Ng'wande of Ihanja Mdando area of Njombe Region poses for a photo after receiving his test results at the free HIV counselling and testing camp that was conducted by the UHAI-CT program in the region. The farmer and church elder was on his way to the nearby market when he came across the UHAI-CT team and decided to receive free counselling and testing for HIV/AIDS.**

**A Peer educator from T-MARC Tanzania demonstrates correct female condom use methods to a group of women who had gathered to receive free HIV counselling and testing services as part of the UHAI-CT program activities in Njombe region.**
